

ERP for Process Manufacturers

Nutraceuticals

CitySoft Consulting's ERP system for manufacturers of nutraceuticals is built on the Sage X3 ERP platform utilizing technologies developed by Provenio for Sage X3. The fully integrated system provides process manufacturers best of breed industry specific capabilities such as regulatory compliance, quality control, and formula management within a best of suite ERP system designed for small to medium sized enterprises.

Formulations

Nutraceuticals

Manufacturers of nutraceuticals have specific needs around formulations such as raw material suggestions and nutritional targets. They may also need to manage daily values & proprietary blends. Label claims, packaging sizes and nutritional supplement panels also apply in this industry.

CitySoft's ERP system for manufacturers of nutraceuticals not only supports management of nutrients it also helps determine potency.

Product Label Claims

Nutraceuticals

CitySoft's ERP system for manufacturers of nutraceuticals supports multiple label claims per each nutrient, including capsules.

R & D Formula

Nutraceuticals

CitySoft's ERP system for manufacturers of nutraceuticals utilizes the unit of measure in all formulations rather than a batch size. Formulas are not required to be the same unit as the stocking unit of the product that will be produced from the formula. For instance, a unit size may be a capsule or a serving which is less than one serving.

R & D Formula

Nutraceuticals

CitySoft's ERP system for manufacturers of nutraceuticals records certification indicating the date, who certified the nutrient data and the fact all nutrients were within the acceptable range. The system also supports an overage % to ensure label claims are fulfilled.

Packaging

Nutraceuticals

CitySoft's ERP system for manufacturers of nutraceuticals enables package sizes to be specified for each formula.

PACKAGE SIZES

		Package Number	Unit	Capsule	Units Per Package	Servings Per Package
1	⋮	1	C01	RAW470	60	30
2	⋮
